

CAF

help for children and young people who need extra support

The Common Assessment Framework (CAF) means you can:

- have a conversation with someone who works with your child about things that are going well and extra support that might be needed;
- work out together what support might be needed and who can help;
- see everything that is written on the CAF form;
- say who the information can be shared with;
- have a choice. CAF can only be done if you agree.

For more information talk to someone who works with your child, phone 01634 334325, or email caf.co-ordinator@medway.gov.uk Information is also available by visiting: www.medwaychildrenstrust.co.uk
